Comments Report

STUDENT INFORMATION

27a. Please comment why or why not:

- A more exciting way of presenting the material instead of just writing it on the whiteboard
- Assign homework before the quizzes
- Could have given exams with a less multiple choice questions on it, and more short answer questions on it. That way it is possible to get partial credit.
- He could make it more involved with the class.
- He was an excellent teacher
- Homework was significantly harder than all lectures and quizzes. We would learn a chapter and then take a quiz on the material the same day.
- Making notes available for outside of class and using a textbook that coordinates with lecture
- My professor did a really good job of presenting to the class and helping everyone understand the material.
- Powerpoint slides or in class videos would have made class more interesting
- The class was very well organized and the content learned in class correlated with the content on exams and assignments
- The instructor covered all course materials.
- The quizzes could have been easier to study for with material that would for sure be listed on them
- X
- did very well
- he did a great job. I really feel like I learned the materials.
- more detailed lectures

34. What are the weaknesses of the instructor?

- He doesn't often use outside resources and I usually like to have resources online.
- He is too smart to be teaching this intro course
- He is wayyyy too smart to be teaching an introductory level class!!
- I would have liked to see the homework due dates on the syllabus
- Involving the class
- Just sitting at the board and writing every notes down. Not much to teach as far as examples that don't come from the book or powerpoint.
- Lectures grew monotonous. It would have been a relief to try exercises instead of writing down notes the entire time.
- None
- None
- Quizzes not always announced before class
- Same day quiz's on content we just learned and lectured in class. Even though I listen and take notes, I think its a little too much to ask students to take a quiz that included content we were just introduced to five to ten minutes earlier. I think proper learning requires processing and the ability to re-read notes and then possibly just take the quiz the start of the next class.
- The instructor delivers the material in a repetitive way that is sometimes boring and hard to follow, which makes it a struggle to show up to class.
- doesnt put notes online
- none
